TEBOGO 'PAT' DIKGATLONG
WEB DEVELOPER

Portfolio: https://tebo-dikgatlong.netlify.app/
GitHub: https://github.com/Dikgatlong27
LinkedIn: https://www.linkedin.com/in/tebogo-dikgatlong/

Objective

A self-taught front-end developer. Started journey in 2021 with expertise in HTML, CSS, JavaScript, and React.js, actively pursuing a role to further enhance my skills. With hands-on experience in building responsive and interactive web applications, I aim to specialize in front-end development. Currently expanding my skill set in backend technologies through third-party APIs like Firebase and Stripe.

SKILLS

Languages/Technologies: HTML5, CSS3, JavaScript (ES6+), React.js, REST APIs
Frontend Frameworks: React.js
Design & Prototyping: Figma
Backend: Firebase (Authentication, Firestore), Stripe API
Version Control: Git, GitHub
Other Tools: Shopify (for e-commerce)

LANGUAGES

- English, Sotho, Zulu, Spanish

HOBBIES

- **Designing:** Passionate about UI/UX design and often explore creative tools like Figma to design mockups and prototypes.
- **Coding Challenges:** Regularly participate in coding challenges on platforms like Codewars to improve problem-solving skills.
- **Tech Blogging:** Writing about web development trends, tutorials, and experiences on personal blogs or platforms like Medium.
- **Gaming:** Enjoy playing video games, especially those that involve strategy and problem-solving, which help sharpen my analytical thinking.

PROJECTS

The Fortress Restaurant - *Fine Dining Web Application*

- Built using React.js
- Responsive layout with interactive features.
- https://fortress-restaurant.netlify.app/

LPTB Solutions Pty Ltd - *Company Web Application*

- Developed with React.js and Firebase for client authentication.
- Includes user registration, sign-in, and real-time database using Firestore.
- This is my own business where I do freelancing.
- https://lptb-solutions.netlify.app/

CERAT - Furniture & Engineering Solutions
Figma Design Project - Current Project

- Creating interactive design prototypes.
- Using Figma to showcase the product catalog and user journey.
- https://www.figma.com/proto/13xJb7nr1N7m5P7oH59eMb/CERAT?node-id=11-23&starting-point-node-id=11%3A23
